

Across:

1. different shapes for male and female
3. a historic model organism for cytogenetics
4. a model organism with sexual and asexual life cycles
7. a pseudo-living model organism
9. an organism with both male and female reproductive organs
11. a dicot plant model organism
12. a famous prokaryotic model organism

Down:

1. a famous model organism for genetics
2. a branch of biology that study molecules
5. a multicellular organism that can be stores as eggs
6. a description of prokaryotic genomes
8. a model organism for vertebrate development
10. a model organism for humans
